Friday 6th June

Dear Parents and Carers,

As you may be aware, the wall at our Southport Road entrance is in need of urgent repair and will be **demolished and rebuilt over the next three to four weeks.**

Unfortunately, starting this work during the summer holiday is not an option due to the wall's current condition and our commitment to prioritising the safety of all children and families.

During this period, access to the school will be via the Aintree Road and Kelly Drive entrances only. We anticipate that these walkways will be busier than usual at the beginning and end of the day.

To help ensure everyone's safety, please:

- Walk slowly and in an orderly fashion when entering and leaving the school grounds.
- Walk all bikes and scooters in at all times
- Avoid parking on Kelly Drive: it is a narrow road, and several residents' vehicles have recently been damaged.

Times for morning drop-off will remain unchanged thanks to our Informal Entry window (8:30am to 8:45am), but we will be adjusting **finish times** to help minimise congestion and keep everyone as safe as possible:

- Nursery gates will open as usual at **2:53pm**
- Mr Cooney will open the Aintree Road and Kelly Drive gates at **3pm** to allow plenty of time for parents and carers to arrive for pick up
- **Juniors** will be **on the yard** and ready for collection at **3:10pm prompt**. This should help ease movement for Infant parents and those collecting siblings
- **Infants** will finish at **3:15pm** as usual

We will monitor how these arrangements work today and make any necessary adjustments. If any changes are needed for Monday, I will communicate them with you directly.

Thank you, as always, for your continued understanding and support.

Yours sincerely,

Mr J. Gouldbourne

Headteacher

Aintree Road/ Kelly Drive will be open

Southport Road will be closed
