RE: Maths Flashback Questions

Dear Parents and Carers,

We are so proud of how well the children have settled into Year 1 and of the fantastic progress they have already made in Maths. They have approached their learning with enthusiasm, worked incredibly hard and shown us just how much they can achieve!

We have now completed our first Maths unit of the year. Following feedback from parents and carers, we have created a **Year 1 Maths Booklet** containing questions and activities covering the learning taught so far. The booklet is designed to give children lots of opportunities to revisit and practise key skills at home, helping them to build confidence and strengthen their recall of prior learning.

There is no expectation for the booklet to be completed all at once. We know how busy family life can be, so completing just a few questions whenever you have the opportunity will make a real difference. Little and often is a great way to help children remember what they have learnt and become increasingly confident and independent mathematicians.

Thank you, as always, for your continued support with your child's learning. Working together between home and school makes such a difference. We are incredibly proud of everything our Year 1 children have achieved already and cannot wait to see their confidence and skills continue to grow throughout the year.

Thank you for your continued support,

The Year 1 Team
